Good afternoon Steve and Vivian,
I hope your visit and meetings with BIA and Haystack allottees this week were productive. I am reaching out to check on your availability for a conference call next week to update the team and discuss the next steps.

Please advise and I will send out a call invite to everyone.

Thank you,
Maher

Good morning Steve and Vivian,

Thank you both for participating in our access planning calls in the past couple of weeks and for working through some of the access questions in the field later this week. We really appreciate your assistance on coordinating with the different stakeholders. To confirm, we had discussed the following topics on our calls and we are hoping your visit will provide us more direction on these:

- Section 13 – BIA Access Coordination: develop a better understanding of the approach to obtain access to Section 13 for TCRA implementation.

- Section 18 – Indian Allotment: confirm allottees and access coordination details (access agreement vs. notification letters).
- Section 24 – Indian Allotment: determine allottees. Although not required for the TCRA work activities, it may be beneficial to touch base with the residents/allottees in this area in case access is needed down the road.
- Chapter/Grazing/Farming Rights: determine the individuals who have grazing or farming rights near the Haystack Mine.

Safe travels and talk to you soon.

Regards,

Thank you all for your responses.

I will go ahead and set up the call for next Thursday to circle back with Vivian on her progress reaching out to the Ex. 6 Personal Privacy (PP) family and Bertha Spencer of the BIA (the latter was suggested by Lenora Bates of the BIA). We agree that the face-to-face meeting with the BIA, residents and/or property owners will be very beneficial to determining access coordination details and requirements for this project. So please, Steve and Vivian, go ahead and schedule it. We will discuss the action items and objectives of this visit with Vivian during our call next week.

Regards,
Mahe

Maher – Thanks for your message. Turns out I forgot that I’m on a vacation next week when I initially suggested this Access call.

I’d suggest having the call nonetheless provided that Vivian is available and is key to “connecting the dots” on the various parcels. I can catch up when I return on your strategy. I might add that I’m available to be in Gallup, Haystack and/or Crown Point the week of July 24th or July 31st for any face-to-face with BIA, residents and/or property owners if that makes sense.

Vivian – is that alright with you?

Let me know what you decide.

All,
Per Steve’s suggestion during our call earlier today, I would like to schedule a conference call for next week to discuss progress on access coordination. How is each one’s availability next Thursday (July 20th) for this call? How about a time slot similar to today’s call (1 pm PT or 2 pm MT)?
